

MAGNIFIERS

STEREO MICROSCOPE

**COMPLETE
175.00**

This Stereo Microscope offers an unreversed, upright image ideal for use in examining coins, gems, plants, insects or virtually any three-dimensional specimen. Precision optics provide a wide field of view with good depth and high resolution. Rugged metal construction assures years of service at an economical price. The dual focusing knobs feature a rack and pinion mechanism and a

special screw locks the head assembly in place to avoid refocusing. This microscope can be useful in many industrial applications as well as for educational purposes. x 7" x 12" H, N.W.: 5 1/2 lbs.

Features:

- True Stereo, Erect Image Viewing
- Crystal Clear, All Glass (NO Plastics) Optics
- Precision Ground Prisms (NOT Cheap Mirrors)
- 20X Magnification
- Wide Field Eyepieces with interpupillary adjustment and Diopter control
- Rack & Pinion focusing with adjustable slip-clutch
- Vinyl Dust Cover included

ANCO READING GLASSES

Made with clear lenses of the highest quality mounted inside chromium-plated brass rims to protect the lenses from scratching. Smoothly finished handles are of solid black ebonite.

ILLUMINATING STAND MAGNIFIER BY BAUSCH & LOMB

This magnifier has a wide range of uses. Both the lens and the light are adjustable. With the lens tilted, small objects can be worked on or inspected. When the lens is parallel to the work surface, anything laid beneath it is in focus.

GOOD VALUE AT ONLY 48.50

BAUSCH & LOMB PACKETTE MAGNIFIER

Available in powerful 5x magnification

- 5x provides stronger magnification, but a good field of view.
- Protective case snaps open; clicks shut.
- Lens is pure optical plastic, molded to precision-optics standards.
- Open, the case serves as a handle; closed, it protects the lens from impact, dust and dirt.
